1. Project Overview

Project: Enhanced Task Manager

Goal: a task manager with priorities, due dates, search and reports.

Planning

- Requirements gathering and user stories
- Database schema design (tasks, users, tags)
- Modular design: storage / logic / reporting

Design

- Task: id, title, priority (High/Medium/Low), due date, status
- Config-driven automation for documents (this lab)

2. Task List

T-01	Design database schema	High	Done
T-02	Create / edit / delete tasks	High	Done
T-03	Priority & due-date filter	Medium	Done
T-04	Search tasks by keyword	Medium	Done
T-05	Weekly PDF/Word report	Medium	In progress
T-06	Email reminders	Low	To do

3. Progress Summary

Completed: 4 of 6 tasks (67%)

Next steps

- Finish weekly report generation
- Add email reminders for due tasks
- Write unit tests for the task module
